

WE HAVE LAUNCHED St. Oliver's PARISH APP! If you haven't downloaded yet, IT'S AN EASY PROCESS, SIMPLY TEXT THE WORD APP TO 88202! For those of you who have an Android phone, go to your App store (maybe Google Play) and download the App from there. The language you have selected for your phone will be the language in which you will view the App.

For iPhones, once you receive the link back by text, simply click on the link and follow the prompts. You will most likely be directed to your App Store to download the App. You can be assured that this is a secure App.

It is not necessary to create a log in to access all the tools on the app, or to receive messages from St. Oliver's. You have access to all of that when you download the FREE App.

We are looking forward to using this technology to keep our parish well connected and informed.

Joining a Group

If you are interested in joining a Group (MINISTRY, ORGANIZATION, TEAM) in the App, click on the Groups button and you will be prompted to create a log in, with your name, email address, password and birthdate.

Tap on Groups button in the App, click on the Group you are interested in joining, you will be prompted to Create an Account: Name, Email, Password, Birthday: To find your birth year, click on the YEAR (2018) in upper left at the top of the screen for a drop down list of years, find your year of birth, select the year, continue to select your birth month and date, when completed tap OK.

An email will be sent to the App Administrator and you will show up as a member of the group/ministry once your request is approved. This will allow you to interact with other members in your group.
