

# heal·ing 'hēliNG/

*noun*

the process of making or becoming sound or healthy again.

"the gift of healing" *adjective* tending to heal; therapeutic. "a healing experience"

*Synonyms:* alleviate, ease, assuage, palliate, relieve, help, lessen, mitigate, attenuate, allay  
"time will heal the pain of grief"

**Dear Parishioners:**

**On Wednesday, September 19, 2018, the Feast of Our lady of La Salette, I am inviting everyone to join me and Fr. Baiju for an evening of liturgy and prayer at 7:00pm.**

**We will offer a Mass of Healing for all the victims of sexual abuse, as well as for anyone who has suffered any type of abuse. We want to pray for complete healing of the abused, the abandoned and those who find themselves alone. In the reconciliation charism of La Salette, we want to pray for all the priests and bishops whose actions hurt or affected minors in any way. I would like to offer an opportunity to listen to your pain, your concerns and offer prayers for all.**

**Mary, at La Salette, invited the children then, and now, each one of us, to "Come near my children and don't be afraid." We want to offer a safe and secure environment for all to grieve your losses, share your burdens and enjoy the support of this compassionate community, thus enabling us to move forward towards healing, wellness and growth.**

**Please know that I am with you in prayer and by the grace of God and through the intercession of Our Lady of La Salette, the reconciler of sinners, we will all heal and be comforted.**

**Please invite your family and friends to join this special evening of prayer.**

**Yours in Christ,**

*Fr. Cyriac*

**SERVICE OF  
HEALING**

**St. Oliver Plunkett Church**
